Subject: Notification per PRN 98-10 – Marketing claims; correcting VOC
Product Name: MONTEREY WATER-BASED ANTIFOULING COATING
EPA Registration Number: 44891-9
Application Date: July 29, 2015
Decision Number: 508159

Dear Mr. Kutcel:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Tuere Williams at 703-347-0316 or via email at williams.tuere@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Julie Chao", is positioned above the typed name.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. Causes substantial but temporary eye injury. May be fatal if swallowed or inhaled. Harmful if absorbed through skin. Do not get in eyes or clothing. Do not breathe vapors, spray mist, dust or chips from sanding. Avoid contact with skin, eyes or clothing. Wear protective eyewear (goggles, face shield, or safety glasses). While spraying paint or sanding boat surface, wear a mask or pesticide respirator jointly approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health, unless air monitoring demonstrates vapor/mist levels are below applicable limits. Wear protective clothing (long-sleeved cotton shirt, long pants and hat) and waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water by cleaning of equipment or disposing of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill.

FIRST AID

If in eyes – Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed – Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled – Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If on skin or clothing – Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes.

For Hazardous Materials [or Dangerous Goods] Incident Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night. Within USA and Canada 1-800-424-9300. Outside USA and Canada +1-703-527-3887 CHEMTREC. Account #15570.
For Non Emergencies call New Nautical Coatings Inc., Within the USA and Canada 1-800-528-0997, Outside USA and Canada +1-727-523-8053.

STORAGE AND DISPOSAL

Do not contaminate food, feed or water by storage or disposal.

Storage: Keep container closed when not in use. Keep container tight and upright to prevent leakage. Do not store near heat or open flame. Store below 100°F/38°C. Store in well ventilated area.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Non-refillable container, do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

In Case of Spill or Leak: Ventilate area. Absorb with an inert material and dispose of in accordance with applicable local regulations.

In Case of Fire: Use CO₂, dry chemical, foam or water spray/fog. Cool closed containers with water.

Peel back for application instructions on the other side.

Content on the Back Side of the Label:

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL DESCRIPTION

Hard ablative, multi-seasonal, water-based antifoulant. Provides protection against algae, barnacles, annelids, tunicates, bryzoa, hydroids, zebra mussels and other fouling organisms. Monterey is abrasion resistant for scrubbing, trailering and dry storage. Reduces paint buildup. This product is intended for both salt and fresh water use. Monterey applies easily and dries quickly. It may be used over old antifouling finishes in good condition. Monterey is an antifouling paint in a high-technology vehicle that withstands frequent trailering, beaching and launching. Monterey should not be used on aluminum without a proper barrier system. Please consult with your Sea Hawk Representative.

SHAKE VIGOROUSLY FOR A MINIMUM OF 10 MINUTES BEFORE APPLICATION

PRODUCT INFORMATION

Finish/Sheen: Semi-Gloss
Converter: One Pack
Copper Content: 58%
Volume Solids: 44% ± 2%
Mix Ratio: One Pack
Shipping Weight: 1.438 Lbs./Half Pint
Flash Point: N/A

APPLICATION DETAILS

For use on hull mounted transducers

Method: Brush, roller or spray
Thinner: Water
Cleaner: Water

Film Thickness: 5 mils wet equals 2.2 dry per coat
Recommended Coats: 2 on entire hull and 3 at waterline
Theoretical Coverage: 320 Sq. Ft./Gal. @ recommended film thickness

OVERCOATING INTERVALS

Drying Times (Hrs)

Substrate Temp	Touch Dry	Overcoat Min	Overcoat Max	Launch
73°F (23°C)	2 Hrs	1 Hr	N/A	12 Hrs
95°F (35°C)	1 Hr	1 Hr	N/A	12 Hrs

Consult with your Sea Hawk representative for the system best suited for surfaces to be protected.

REGULATORY DATA

VOC: 78 Grams/Liter

LIMITATIONS: Apply in good weather when air and surface temperature are above 50°F (10°C). Surface temperature must be at least 50°F (10°C) above dew point. For optimum application properties, bring material to 70-80°F (21-27°C) temperature range prior to mixing and application. Unmixed material (in closed containers) should be maintained in protected storage between 40 and 100°F (4-38°C).

Prolonged atmospheric exposure of this product may detract from performance.

Technical and application data herein is for the purpose of establishing a general guideline for the coating and the proper coating application procedures. As

application, environmental and design factors can vary significantly, due care should be exercised in the selection, verification of performance and use of the coating.

SURFACE PREPARATION: Paint only clean, dry surfaces. Remove all grease, oil, wax, or other foreign material by solvent or detergent washing. (SSPC-SPI)

New Construction: As yard procedures may vary, consult with your Sea Hawk Representative.

APPLICATION: Apply by brush, roller or spray. Apply 5 mils wet, which will yield 2.2 mils dry per coat.

EQUIPMENT

Brush: China Bristle

Roller: Solvent Resistant Roller Cover 3/8" pile smooth to medium. Prewash Roller Cover to remove loose fibers prior to use.

Airless Spray: Minimum 33:1-2 GPM ratio pump; 0.017"-0.026" orifice tip; 3/8" ID high-pressure material hose; 90 PSI line pressure; 60 mesh filter.

THINNING: If thinning is necessary, thin up to a maximum of 10% with clean potable water.

CLEANUP: Clean all equipment immediately after use with water. It is good practice to periodically flush out spray equipment during the course of the day. Frequency depends upon the amount sprayed, temperature, elapsed time including delay, etc.

SAFETY: Read and observe all precautionary statements on this label.
